

Why Business Owners and Entrepreneurs Want Office Angels

"I didn't need a full-time employee; I needed someone to be on call and to help once in a while. My Angel makes sure that everything that leaves my office is well written and on message, so I can concentrate on what I do best and keep my energies focused on growing my business."

Peggy Parks, CIC, AICI, Founder, Parks Image Group, Inc.

"We were introduced to Office Angels at a point of crisis. Our Angel stepped in and kept things going 'as if' she had been there all along. She has been such a wonderful addition to the team that we never replaced the seasoned assistant who left."

Gloria S. Lewis, CPA
Founder and CEO
The Lewis CPA Firm, Inc.

"The benefits to my company are clear: I don't have to spend a great deal of time bring contractors up-to-speed on my business, nor do I have the significant overhead costs of full-time employees."

Christine Williams-Timme
CEO
FinListics Solutions

"For the first time, my business was able to produce an accurate Profit and Loss Statement, which has helped me better manage my finances. "

Mike Adams
President
Adams Lawn Maintenance, Inc.

"No long-term contracts or financial commitments were needed. All the services were confirmed in writing, and I knew exactly what I was getting and how much it would cost."

Ellen Sichel
Ellen Sichel Yoga, Ltd.
